EDUCATION

- **Bachelor of Technology in Computer Science and Engineering (Data Science)** 2022-26
Koneru Lakshmaiah University, Vijayawada. CGPA: 9.2

PERSONAL PROJECTS

•Airline Management System

A comprehensive system to manage airline operations efficiently.

- Designed and implemented a system to streamline airline management, including scheduling, ticketing, and customer data management.
- Incorporated database functionality using MongoDB for efficient storage and retrieval of flight and customer data.
- Developed interactive user interfaces using JavaScript for enhanced user experience.
- Technology Used: MongoDB, JavaScript.

•Event Management System

A platform to simplify the planning and execution of events.

- Created a system to handle event planning, scheduling, and resource allocation seamlessly.
- Utilized CodeReady Studio for backend development and managing workflows.
- Enabled real-time updates and tracking for effective event management.
- Technology Used: CodeReady Studio.

•Online Medical Services

A web platform providing users access to medical services online.

- Developed an online platform for users to book appointments, access medical records, and consult with doctors.
- Implemented the frontend using React for a responsive and interactive user interface.
- Ensured smooth backend integration using Java, handling user authentication and data security.
- Styled the application using CSS for a modern and clean design.
- Technology Used: Java, React, CSS.

EXPERIENCE

•Cloud Computing Intern

2023 – 2024

AICTE Online

- Collaborated with development teams to design and implement software architecture for cloud-based solutions, improving scalability by 25%.
- Applied expertise in distributed systems to optimize cloud infrastructure, reducing deployment time by 15%.
- Contributed to the implementation of secure and efficient cloud services using industry best practices.

•Data Engineering Intern

2022 – 2023

AICTE India

- Developed and deployed data pipelines that improved data processing speed by 30%.
- Designed scalable data storage solutions to handle large datasets efficiently, resulting in a 20% improvement.
- Tested and validated data systems to ensure high reliability and accuracy for critical business insights.

TECHNICAL SKILLS AND INTERESTS

Languages: C, Python, HTML+CSS

Libraries: Python Libraries

Web Dev Tools: Node.js, VS Code, Git, GitHub

Areas of Interest: Analysis of Data

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability

CERTIFICATIONS

– **AWS Cloud Practitioner**

– **RED-HAT-EX-183**

– **Salesforce AI**
